AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

- 1. (currently amended): A method for producing a ketone compound, which comprises simultaneously dehydrating and reducing hydrogenating an acyloin in the coexistence of an acid catalyst and a reduction hydrogenation catalyst and in the presence of hydrogen.
- 2. (original): The method for producing a ketone compound according to claim 1, wherein the acid catalyst is phosphoric acids or solid acids.
- 3. (original): The method for producing a ketone compound according to claim 1, wherein the acyloin is a 2-hydroxycycloalkanone having from 12 to 18 carbon atoms.
- 4. (currently amended): The method for producing a ketone compound according to claim 1, wherein the <u>reduction hydrogenation</u> catalyst is at least one member selected from the group consisting of a nickel catalyst, a cobalt catalyst, a copper catalyst, a palladium catalyst, a platinum catalyst, a ruthenium catalyst, and a rhodium catalyst.
